

PRAYER BOOKLET

2024

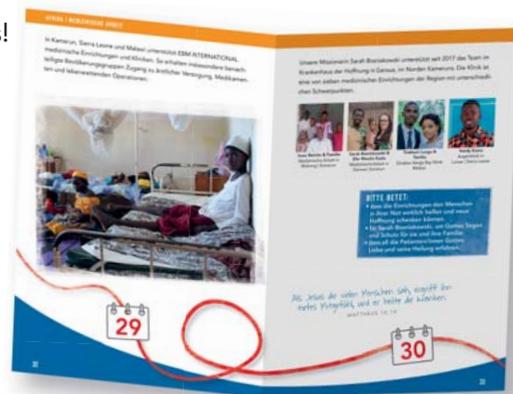

Let all that you do
be done in love.

1 CORINTHIANS 16:14

Dear people of prayer!

„Prayer brings transformation“, which is why we invite you to continue praying for the leaders and participants in our projects in 2024. Over 31 days, a common thread will guide you through the diverse work of EBM INTERNATIONAL around the world. On each day, you can immerse yourself in a country or project area and get to know the faces and names of people who need your prayers. You will also find prayer requests that you can expand as you wish. These are just a selection - our work involves far more people and projects than we can show here. Please use this prayer booklet and feel free to give us feedback.

Thank you very much for your prayers!

„Let all that you do be done in love“

1 Corinthians 16:14

Dear readers,

Love is the driving force of our missionary work. We have received so much love from our heavenly Father; we gladly share this love with others.

More than 100 employees in over 300 projects share God's love in word and deed, through evangelization and church planting, in social, ecological and educational projects.

We need your prayers to ensure that love reigns in all our activities, both among our teams and towards our fellow human beings. That's what this prayer booklet is for.

We cannot produce love out of ourselves, but the Spirit of God makes it grow in us.

A heartfelt thank you to all those who support us by remembering us in prayer and helping us financially.

In this way, people in need can experience God's love in body, soul and spirit.

Reverend Michael Kießalt

The training of pastors is one of EBM INTERNATIONAL's main tasks in Africa. In all eight partner countries, we support projects for theological education and training as well as decentralized training courses. We also support people in the area of church planting.

MARK 16:15

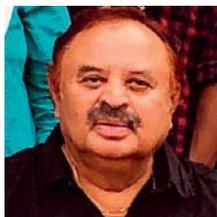

EBM INTERNATIONAL supports 12 children's homes in India. These provide a reliable home for children from a wide variety of problematic backgrounds as well as orphans and half-orphans. They also receive regular meals, leisure activities and learn about the Christian faith through the homes' connection to a church.

The standards for our partners' children's homes are clearly defined: sufficient space for the children, an appropriate staffing ratio for care, good nutrition, as well as a commitment by all employees to stand up against any form of abuse of children, to fight against child labor and to stand up for the observance of children's rights.

*Come to me, all you who are
weary and burdened, and I will
give you rest.*
MATTHEW 11:28

PLEASE PRAY:

- for a good atmosphere in the children's homes.
- for the loving care of the nursery school teachers and home managers.
- for healing experiences for traumatized girls and boys.

The economic situation in Cuba remains difficult. Despite this, church work is growing steadily and many new churches are being founded. It often starts with Bible clubs - a children's program on the street, sports programs or social help for children and young people.

Every year, many new church planters are also trained and educated so that the churches in Cuba can continue to grow and the gospel can be proclaimed. The new churches are always socially and holistically oriented and take care of the people and their needs in their surroundings.

PLEASE PRAY:

- for God's strength and provision for the suffering people in Cuba.
- that the churches can bring light and hope to the people.
- for a good training for the many new church planters.

Let my prayer come
before you.

The Turkish Baptist Union was founded in 2014. EBM INTERNATIONAL currently supports four churches and six staff members there. Under the leadership of Ertan Çevik, new employees receive theological training in an online course and are prepared for ministry. He also coordinates the work with refugees both in his own country and in the Syrian border regions. In this way, the Christian communities are a strong witness of charity in society.

- for the safety of all brothers and sisters in Turkey and the well-being of all those who receive help through them.

Alone in Cameroon and the Central African Republic, we support five large training centers. Here, women are trained as seamstresses and the technical centers offer training in car mechanics, gastronomy and metalworking. At the technical center in Garoua/Cameroon, our missionaries Loïs and Nathan Minard support the training of young men and women.

EBM INTERNATIONAL supports hospitals, eye clinics, eye camps and leper colonies in India. This provides the poor and disadvantaged population with high-quality medical treatment free of charge. Bridge of Hope even offers chemotherapeutic treatment for children with leukemia in Gotlam.

Thousands of eye operations are performed in eye clinics every year and many people are cured of cataracts. This procedure is life-changing. It enables them to continue to see the world through their own eyes. This increases their quality of life immensely and helps them to continue living independently.

In recent years, we have been able to provide aid in many disaster situations around the world. Through our partner churches, we were able to provide local people with emergency aid such as food, clothing and hygiene products, as well as shelter and sanitary facilities. This guarantees that the aid reaches the people who need it quickly and easily.

PLEASE PRAY:

- for protection and care for the refugees worldwide.
- that our partner churches will be able to care for the people in need.
- for sufficient financial support to be able to provide uncomplicated help if necessary.

At the end of 2023, EBM INTERNATIONAL again sent out several volunteers to various projects – courageous young people who want to serve people for a year, discover God and grow in their faith. Please pray for them.

PLEASE PRAY:

- for God’s protection for our volunteers.
- that they are a blessing and light in their surroundings.
- for good cooperation and valuable encounters with local people.

In Sierra Leone, Equatorial Guinea and Cameroon, EBM INTERNATIONAL supports thousands of young people in over 70 schools - from pre-school to secondary school. Education is the most effective way to combat poverty, which is why school attendance enables children from the poorer population in particular to break out of the poverty spiral.

Karin Schwarz, our missionary on the Balaka farm in Malawi, has a special, holistic view of people and nature. Young people are trained here in agriculture and naturopathy and at the same time encouraged and strengthened in their spiritual and personal growth. Bible studies, botany and personal development go hand in hand at Balaka Farm.

- for a bountiful harvest and protection from disasters.

Every day in India, an average of 1,000 children die from malnutrition and diarrheal diseases; almost a third of all children under the age of five are underweight. In over 15 villages in the Nellore district, employees of our partner ALMA distribute milk and boiled eggs to children and mothers to provide them with valuable nutrients. Other partners also offer such projects.

- that children and mothers will be strengthened through the provision.
- that hunger and poverty will come to an end and that God will have mercy on his people.

Over 40 years ago, Adrián Campero began his ministry as a missionary among the Quechua in Peru all by himself. Since then, over 60 churches have been planted and a large team of pastors has emerged, who are trained at their own Quechua Bible seminary. The gospel is now being proclaimed in Quechua throughout the region and there is a vision of planting 30 more churches in the next few years.

ACTS OF THE APOSTLES 1:14

PLEASE PRAY:

- in the politically and socially tense situation in Peru, for peace and God's protection for the churches.
- for God's speaking and working among the Quechua.
- for Adrián Campero and the staff, for God's blessing and strength for them and their families.

The devastation of the Sahel is continuing. This is also becoming an increasing problem for the north of Cameroon. This is why EBM INTERNATIONAL is supporting the Sahel Vert project. A natural barrier is now being created at nine locations through reforestation work. Over 30,000 new trees were planted in 2022. In addition, people are being trained in agriculture and sensitized to climate change.

- for an open mind among the population to support this project.
- for all those involved in Sahel Vert, that they are a testimony and a light in society through their commitment.
- that through Sahel Vert people encounter God and experience his love.

In the south of Mozambique, our Spanish missionary Sara Marcos and her team work in the social center in Macia. More than 50 girls and boys, especially those with disabilities, receive intensive care here. EBM INTERNATIONAL supports 12 sewing schools in India, where hundreds of young women are trained as seamstresses every year. To enable them to become self-employed after their training, they are given their own sewing machine. In addition, young men and women from underprivileged backgrounds are trained in the training centers to learn general skills (spelling, PC skills, etc.) and thus have an easier entry into working life.

PLEASE PRAY:

- for all trainees to enjoy learning.
- that all tailors have a successful start to their professions.
- for strength and motivation for the trainers and teachers.

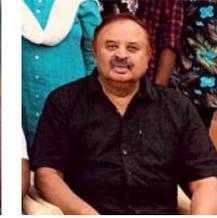

The opportunity to enjoy an age-appropriate education enables children to escape the cycle of poverty and shape their lives with self-confidence. Children from tribal families are taught in the preschools of our partner BLESS, as both parents have to work to support their families. In Tony Yeguri's tutoring centers, children receive valuable individual support in learning that no one at home could offer them.

In Latin America, many children grow up in an insecure environment or are even left to fend for themselves. In our pre-school projects (PEPE) and day care (MANNA), EBM INTERNATIONAL provides these children with a safe place to receive security, support and help for school. In addition, the children's home in Alem takes in children from difficult backgrounds to give them a new home in small, family groups.

EBM INTERNATIONAL supports medical facilities and clinics in Cameroon, Sierra Leone and Malawi. This gives disadvantaged population groups in particular access to medical care, medicines and life-saving operations.

Our missionary Sarah Bosniakowski has been supporting the team at the Hospital of Hope in Garoua, in the north of Cameroon, since 2017. The clinic is one of seven medical facilities in the region with different areas of focus.

MATTHEW 14:14

Helping vulnerable children in Latin America has been a central aspect of EBM INTERNATIONAL's work from the very beginning. Children and young people in need find a new home in the many social centers and do not have to fear life on the streets, which is often characterized by drug-related crime and violence.

Whoever receives one such child in my name receives me.

MATTHEW 18:5

In the social centers, they receive loving care, food, help with their studies and support for the whole family - this is how they experience God's love in a very practical way. The CAIS project in Brazil also specializes in supporting and accompanying children with hearing impairments and their families.
